Helldorado - a real-time tactical video game. This is a spin-off/sequel to the 2006 game Desperados 2: Cooper's Revenge that continues the story... The game is set in 1979. Two soldiers go on a raid on "Base 66" to deliver a package to a certain "Cooper" about whom little is known. The raid fails and the soldiers are caught by members of the anti-terrorist organization Xtreme. The soldiers find themselves on a desert island, on which there is nothing but the ruins of the old "Base 66". While on the island, the soldiers discover that there is a mysterious mechanism in one of the base's rooms that apparently uses power from a nuclear reactor.
