Developed By: VoidBet Published By: GoG.com For: Linux, Mac, and PC What You Will Find in Maelstrom:  
-Maelstrom is a completely new Battle Royale game with naval combat, out-of-match progression, and sea monsters. -Come to Maelstrom, join the fight with friends or foes, or avoid it all together. -Loot chests for powerful gear. -Combine sets of gear to boost your stats. -There is no reward for winning the fight, but you can replay the maps to find hidden loot. -Join clans. Clans can join and leave from the leaderboards.  
-Maelstrom is currently in a closed beta with users from around the globe. About Maelstrom: Maelstrom is a Battle Royale game with elements of economic and naval warfare and occasional sea monsters. The players are placed on an island of unknown location. The object of the game is to remain alive as long as possible. The game begins with the weakest player on the island dying. As time goes on and no player is left alive, the island starts to sink. The last player standing on the island is crowned the victor and claims the game's loot.  
How to Play: -Join Maelstrom via Steam, Desura, or GoG.com. -Use the keyboard to move. You can also use WASD or mouse scrollwheel. -If you have a controller, connect it. A controller will be supported in a future release. -Combine sets of gear to boost your stats. -Maelstrom ships are fast, strong, and have a wide spread of cannon fire. -There are no healing items. -The game is single player only. -There is no matchmaking in Maelstrom. If you want to play with other people, join a clan. -Map progression is done by earning "trees".  
Trees are earned by defeating players on the map. About the Deathmatch
