STORY The powerful Elden Ring is split into three groups: humanity, dusk, and dark. These three groups were born from the hearts of the ancient people, and were given their own fates by the gods. Each of these has their own independent origin, and the story progresses as the conflict between them evolves. A long time ago, the Elden Ring attempted to attain dominion over the world. As darkness and chaos spread, the people of the world were finally freed from their suffering. In the end, they were unable to prevent the destruction of life as the power of the Elden Ring became too strong. As the ring was bent in on itself, dark turned to panic as monsters appeared. Dark and dusk fled from the world, and darkness and chaos spread across the world. It was said that the world was lost, but thanks to the gods who had protected mankind, the world still existed. The current story takes place in the Lands Between, a world where the Gods have not yet decided their fates. As the people of the world, you must join with the people of dusk and dark and use the power of the Elden Ring to win back the world. • An open world featuring varied locations such
